**2015 Building Energy Reduction Awards Ceremony
and
Energy Seminars**

About the Program: The program will allow attendees to choose two half hour breakout sessions from 4 key areas relative to Procurement Strategies, Best Practices and What's available from different agencies. This will be followed by the presentation of the BOMA NJ annual Building Energy Reduction Awards.

New Jersey Smart Start Building Program: New Jersey's Clean Energy Program offers commercial, industrial, and municipal customers financial incentives, design support, and technical assistance to integrate energy efficient and renewable energy technologies into new construction, rehabilitation and equipment replacement projects.

Corporate Energy Best Practices: "Measuring Building Energy Efficiency and Identifying Improvement Opportunities." This seminar will present energy data analytical and reporting tools and how they are used to reveal potential building efficiency improvements, then show how analytical tools are used to identify probable causes for follow-on action.

Presented by: Jeffrey Grant, Mack-Cali Corporation

Energy Procurement Strategies: A High-level information sharing session regarding 3rd party supply components, including objectives, pricing and term options, and the contracting process.

Presented by: Vanessa Markota and Robert Macksoud of Energy Solve

Combine Energy Management with Facility Operations: Identify and eliminate wasted energy.

Presented by: Sandy Stead of HCT Control Technology

EPACT: Government agencies, utilities and others offer a variety of tax credits, rebates and other incentives to support energy efficiency, encourage the use of renewable energy sources, and support efforts to conserve energy and lessen pollution. Learn what is available now in New Jersey.
